PROGRAM:

Mark Clark from the department of Public Works spoke to us on the theme of negotiating. He was thorough and gave suggestions on whom to talk to about issues in and around the City. He gave a synopsis of what is currently going on

in our City. His talk was informative and it was suggested he come again as he was interesting and able to answer our many questions.

GOVERNMENT AFFAIRS:

Glenn Conroy from Realty Executives spoke to us about becoming more involved in City Affairs. His suggestion was for more of us to become involved in City Committees. One of the largest issues he feels is we need to amend the constitution at the State level to eliminate transfer tax, an issue that is extremely important to anyone in our industry. The State is trying to receive a higher rate on the Professional Service tax. An e-mail will be forthcoming that will explain what they are for and how they will be used.
